

# SUPPLY CHAIN COOPERATIVE

As a manufacturing company or multi-site facility management organization, you know how critical it is to have the **right Maintenance/Parts/Supplies** on hand to keep your operations running smoothly. Whether you need general industrial supplies, power transmissions and bearings, janitorial/sanitation supplies, PPE, or other spare parts, the right MRO procurement strategy can make all the difference.

That's where **SDI's Supply Chain Cooperative** comes in. By joining our cooperative, you'll gain access to a powerful network of like-minded organizations, all working together to achieve greater efficiencies, cost savings, and supply chain optimization. By leveraging the group's collective buying power, you can negotiate better pricing and discounts from suppliers, streamline your procurement processes, and improve the overall efficiency and resiliency of your supply chain.

The Supply Chain Cooperative is designed to meet the specific needs of **manufacturing** companies and **multi-site** facility management organizations. Our network of trusted suppliers and service providers are experts in their fields and can help you find the solutions you need to keep your operations running smoothly.

## *Collaborating and Prevailing in the Supply Chain Revolution.*

### What's in it for Cooperative Members?

- **Cost savings:** *By joining our CoOp, members can leverage the collective buying power of the group to negotiate better pricing and discounts from suppliers. This can help reduce the overall cost of MRO supplies and services, while also improving the quality of those supplies and services.*
- **Streamlined procurement:** *Members can streamline their procurement processes and reduce the administrative burden of MRO procurement. This can free up time and resources for other critical business activities, such as innovation, growth, and customer service.*
- **Supply chain optimization:** *Our CoOp can help members optimize their supply chain by identifying and addressing inefficiencies and bottlenecks in the MRO procurement process. This can lead to faster, more reliable delivery of MRO supplies and services, and a more resilient and adaptable supply chain overall.*
- **Networking and collaboration:** *Members can connect with other industry professionals and share best practices and insights. This can foster collaboration and innovation, and help members stay up-to-date with the latest trends and technologies in the MRO and multi-site facilities management space.*

### Join us. Benefit from our strength. **PREVAIL.**

Don't miss out on the opportunity to join the Supply Chain Revolution and take your MRO procurement strategy to the next level. **Contact SDI** to learn more about our Supply Chain Cooperative and how we can help you dominate in the ever-changing world of MRO and multi-site facility management.
